More and more sailors and powerboaters are buying and relying on electronic and electric devices aboard their boats, but few are aware of proper installation procedures or how to safely troubleshoot these devices if they go on the blink.

It is time for the park and recreation profession to distinguish itself as a chief caretaker and celebrant of this planet's wondrous web of life. It is our obligation, our duty, to do everything in our power to create a more peaceful world, a more connected world, a more caring world, in our lifetime. What better use to make of our work? What better use to make of our leisure? What better use to make of our freedom? Help make our profession one that brings out the best in people, one that cultivates respect and compassion for all life, one that inspires each of us to ponder deeply what it means to be fully human. Think big thoughts. Help make the park and recreation profession one that can lead the way.

For nearly thirty years, Maine's premier boating magazine *Maine Boats, Homes & Harbors* has published a regular column called *Boatyard Dogs* about dogs and the nautical life. This delightful book gathers the best of the column into a single volume that makes a wonderful gift for anyone who loves dogs--and boats.

Dozens of detailed drawings plus delightful descriptions and reminiscences of the boats and the people who loved them, the text accompanying each design centers on the background of each boat rather than on a technical study. Each essay is as different as the boat it describes, sometimes explaining a detail of the building process, the origins of a design, the individuals involved, or the evolution of a yacht type.

"A Handbook of Aortic Valve Disease" contains a detailed description of the disease. Etiology, pathogenesis and hemodynamics of Aortic Stenosis and Regurgitation have been dealt in simple and comprehensible manner. Special effort has been made to explain the clinical features (Symptoms and signs) of aortic valve disease. Probably the clinical features is the forgotten art in the newer text books. However, the author has taken a special interest to include a detailed description of clinical features. In the investigation section, echocardiography has been written comprehensively. The diagnosis, severity and prognosis of aortic valve disease depends heavily on echocardiography. The natural history of aortic valve disease in another section where readers will find interesting and minute details about the various stages of aortic valve disease. The treatment section includes description about the various interventions (catheter based as well as surgical) and it also includes the ACC / AHA guidelines. All in all, the book promises to be a great reference book for Aortic Valve disease and is worth having it on shelf for easy reading. The pointwise and concise writing has made this book specially useful for students and exam going students.
