The bilingual dictionary is often utilized as a seed in bilingual lexicon induction (BLI) that aims to induce more word pairs within the language pair (Mikolov et al.,2013). Another utilization of the bilingual dictionary is for translating low- frequency words in supervised NMT (Arthur et al., 2016;Zhang and Zong,2016).

The bilingual dictionary is a dictionary par excellence. It was born in response to a genuine practical need (to understand texts and utterances in a foreign language) and is still predominantly a useful practical tool rather than — as is often the case with large monolingual dictionaries — an essentially symbolic object which confers status upon the owner but is rarely taken off the shelf.
