It was due to the success of Mughal irrigations systems during the reign of the Mughal Emperor Shah Jahan, patronized the digging of wells and build river embankments for irrigation. Shah Jahan ordered the construction of two notable canals : Nahr-i-Faiz and Shah Nahr , which drew water from the Yamuna to various irrigated fertile lands. [10]

Science and technology in the Mughal Empire | Islam Wiki ...
Mughal agriculture was in some ways advanced compared to European agriculture at the time, exemplified by the common use of the seed drill among Indian peasants before its adoption in Europe. While the average peasant across the world was only skilled in growing very few crops, the average Indian peasant was skilled in growing a wide variety of food and non-food crops, increasing their productivity. [88]
