First published Wed Feb 11, 2004; substantive revision Fri Sep 13, 2019. Albert Einstein (1879–1955) is well known as the most prominent physicist of the twentieth century. His contributions to twentieth-century philosophy of science, though of comparable importance, are less well known. Einstein's

Albert Einstein, 1921

Albert Einstein's
religious views have
been widely studied and
often misunderstood.

Albert Einstein stated
that he believed in the
pantheistic God of

Access Free Albert Einstein

Baruch Spinoza. He did not believe in a personal God who concerns himself with fates and actions of human beings, a view which he described as naïve.
