America – Society of Health and Physical Educators (formerly AAHPERD) – this text unveils the new National Standards for K-12 Physical Education. The standards and text have been retooled to support students’ holistic development. This is the third iteration of the National Standards for K-12 Physical Education, and this latest version features two prominent changes: – The term physical literacy underpins the standards. It encompasses the three domains of physical education (psychomotor, cognitive, and affective) and considers not only physical competence and knowledge but also attitudes, motivation, and the social and psychological skills needed for participation. – Grade-level outcomes support the national physical education standards. These measurable outcomes are organized by level (elementary, middle, and high school)

In developing the grade-level outcomes, the authors focus on motor skill competency, student engagement and intrinsic motivation, instructional climate, gender differences, lifetime activity approach, and physical activity. All outcomes are written to align with the standards and with the intent of fostering lifelong physical activity. National Standards & Grade-Level Outcomes for K-12 Physical Education presents the standards and outcomes in ways that will help preservice teachers and current practitioners plan curricula, units, lessons, and tasks. The text
