"Entertaining, informative reading." - Kirkus Reviews Discover how in almost every area of our lives, our behaviour is influenced far more by others than we'd like to imagine. Teenage cliques, jihadist cells, army units, polar expeditions, and football hooligans -- on the face of it, each of these groups might seem exceptional, but the forces that bind and drive them can affect us all. In recent decades, psychologists have uncovered how and why our innate social urges holds huge sway over how we think and act, propelling us to both high achievement and unthinking cruelty. We are beholden to our peers, even when we think we're calling the shots. This is the power of others. In this captivating work, science writer Michael Bond investigates the latest breakthroughs in social psychology to reveal how to guard against groupthink, build better teamwork, identify shared objectives, become more ethical, and survive moments of isolation.

A gorgeous and necessary collection from one of my favourite writers' Warsan Shire Translating as 'initiation', kumukanda is the name given to the rites a young boy from the Luvale tribe must pass through before he is considered a man. The poems of Kayo Chingonyi's remarkable debut explore this passage: between two worlds, ancestral and contemporary; between the living and the dead; between the gulf of who he is and how he is perceived. Underpinned by a love of music, language and literature, here is a powerful exploration of race, identity and masculinity, celebrating what it means to be British and not British, all at once.

Taking Woodstock is the funny, touching, and true story of Elliot Tiber, the man who was instrumental in arranging the site for the original Woodstock Concert. Elliot, whose parents owned an upstate New York motel, was working in Greenwich Village in the summer of 1969. He socialized with the likes of Truman Capote, Tennessee Williams, and photographer Robert Mapplethorpe, and yet somehow managed to keep his gay life a secret from his family. Then on Friday, June 28, Elliot walked into the Stonewall Inn and witnessed the riot that would galvanize the American gay movement and enable him to take stock of his own lifestyle. And on July 15, when Elliot learned that the Woodstock Concert promoters were unable to stage the show in Wallkill, he offered to find them a new venue. Soon he was swept up in a vortex that would change his life forever.

Topics in Contemporary Mathematical Analysis and Applications encompasses several contemporary topics in the field of mathematical analysis, their applications, and relevancies in other areas of research and study. The readers will find developments concerning the topics presented to a reasonable extent with various new problems for further study. Each chapter carefully presents the related problems and issues, methods of solutions, and their possible applications or relevancies in other scientific areas. Aims at enriching the understanding of methods, problems, and applications Offers an understanding of research problems by presenting the necessary developments in reasonable details Discusses applications and uses of operator theory, fixed-point theory, inequalities, bi-univalent functions, functional equations, and scalar-objective programming, and presents various associated problems and ways to solve such problems This book is written for individual researchers, educators, students, and department libraries.

Este libro reúne contribuciones de destacados investigadores de la lingüística hispánica para ofrecer un panorama integral de los castellanos del Perú, incluidos algunos que han sido tradicionalmente objeto de discriminación, como el castellano andino, el amazónico y el afroperuano. Los capítulos se concentran en diferentes variedades habladas en el Perú desde distintos enfoques teóricos y metodológicos, atendiendo a su formación, su contexto social e histórico y los fenómenos de contacto que las caracterizan. De este modo, aunque el volumen tiene un foco regional muy específico, los problemas que aborda son de interés y relevancia para el estudio de otras variedades del español, para el tratamiento de otros problemas derivados del contacto lingüístico y para la dialectología e historia de los castellanos latinoamericanos en general. Escrito en castellano, este volumen será de interés para estudiantes graduados en lingüística hispánica e investigadores dedicados a la dialectología, la sociolingüística y la lingüística del

This easy-to-use resource is a compilation of theoretical background and concrete approaches designed to increase understanding and outline strategies to support autistic children and young people who experience anxiety in the school environment. This resource also has practical application for parents, carers and professionals across a range of educational and community-based settings. Using real life examples and case studies, the book explains and explores the different forms of anxiety and their impact across the school environment. Each chapter offers practical information and strategies that may help reduce the negative symptoms of anxiety and help support emotional resilience across home and school environments. Key features of this book include: Chapters aimed at enhancing the understanding of anxiety in autism, considering potential triggers of anxiety, discussion on cognitive theories, social communication and means of assessing anxiety. A wealth of downloadable anxiety management strategies and resources that can be adapted and used by a teacher, parent or other professional. This resource has been developed by the multidisciplinary team at Middletown Centre for Autism, and is a useful resource for the busy parent, teacher and other professionals who wish to provide individualised support strategies for anxiety across a range of settings.

The task of structuring information on built environment has presented challenges to the research community, software developers and the industry for the last 20 years. Recent work has taken advantage of Web and industry standards such as XML, OWL, IFC and STEP. Another important technology for the fragmented AEC industry is digital communication. Wired or wireless, it brings together architects, engineers and construction site workers, enabling them to exchange information, communicate and work together. Virtual enterprise organization structures,

involving mobile teams over distance, are highly compatible with the needs of the construction industry.

This book sheds light on the invisible early post-arrival period of female family migrants, traditionally considered to be low skilled or professionally quiescent. With attention to the experiences of Chinese and Taiwanese women married to German men, it examines the ways in which the private sphere—marked by intermarriage couple dynamics and native—foreigner relations—constitutes the main locus of women’s socialization in the host country, as interactions with their intimate partners in the family realm shape both their self-conceptions and their employment intentions. Based on interviews with migrant women and their spouses, the author outlines the subject positions that characterize female migrants’ attitudes to external constructs and entering the labor market, showing that female family migrants frequently take on family migrant and wife roles that permeate intimate relationships and impede employment intentions, but also often strive to realign with their pre-departure independent selves and thus regain agency. A study of gender dynamics and labor market entry among newly arrived female migrants, this volume will appeal to scholars of sociology with interests in gender, migration, and work.
