intelligence to interpret hundreds of thousands of data point that they receive to give you real-time traffic data. When you are calling an Uber, both the pricing and the car that matches your ride request is decided by AI.

15 Examples of Artificial Intelligence in Daily Life (2020 ...

Unsurprisingly, the integration of this new technology – artificial intelligence in real estate is upon us. According to techjury – Artificial intelligence (AI) now impacts the real estate industry in the aspects of targeted advertising, market analysis, and client segmentation. It is fair to say that we are in a remarkable period of the AI revolution.
