Life for Easy Rawlins is surprisingly ... easy. He's living off the proceeds of his last case, trying to keep out of trouble. Of course it's not going to last. Because Easy's old friend Mouse knocks on his door. Mouse is one of the deadliest men in America. And Mouse wants a small favor. He wants Easy to help a man he says is wrongly imprisoned, a friend of Charcoal Joe. Charcoal Joe is a mythical figure in the LA underworld - he pulls all the strings but keeps out of sight. Reluctantly, Easy agrees - he owes Mouse his life. But this is no small favor. It's going to be Easy's deadliest investigation yet. It's going to take him from the beaches of Malibu to the shadiest stretches of Sunset in a frenetic adventure through a wild and unrepentant city.

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ? an explanation of the key aspects of the CEFR for teaching and learning; ? a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ? a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ?

promote and support the learning and teaching of modern languages; ? enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ? protect linguistic and cultural diversity in Europe; and ? promote the right to quality education for all.

This is the first volume in a new series on 'Great Minds in Regional Science,' which seeks to present a contemporary view on the scientific relevance of the work done by great thinkers in regional science. It presents, among others, Walter Isard, Martin Beckmann and Gunnar Myrdal. Each contribution combines factual biographical information, a description of their major contributions, and a discussion of the broader context of the work, as well as an assessment of its current relevance, scientific recognition and policy impact. The book attempts to fill a gap in our knowledge, and to respond to the growing interest in the formation and development of the field of regional science and its key influential figures.
