La Guida all'Università 2016/2017, aggiornata alla nuova offerta formativa, fornisce tutti gli strumenti per scegliere con consapevolezza il corso di laurea e mettersi alla prova con i test di ammissione. Il volume, organizzato in 3 sezioni, consente di:
 • autovalutarsi grazie a un questionario sulle attitudini personali;
 • conoscere tutte le università e individuare il corso di laurea più adatto;
 • identificare gli sbocchi lavorativi e le figure professionali per area di studio;
 • mettersi alla prova con i test di ammissione simulati specifici, completi di risposta corretta, così da verificare immediatamente la propria preparazione.

Questo volume raccoglie gli atti del Convegno sul tema "Impresa, lavoro e non lavoro nell'economia digitale", svoltosi presso l'Università di Brescia nell'ottobre del 2017 e organizzato dal "Gruppo d. Lavoro" (che riunisce giuriste e giuristi del lavoro delle università di Brescia, Bologna, Cagliari, Cassino, Catania, Catanzaro, Ferrara, Firenze, Foggia, Genova, Milano Bicocca, Milano Statale, Molise, Pescara, Reggio Calabria, Roma Tre, Siena, Trento, Urbino, Venezia, Verona), in collaborazione con l'OSMER (Osservatorio sul mercato del lavoro e sulle relazioni collettive) dell'Università di Brescia. Il convegno ha fornito l'occasione per riflettere sui cambiamenti epocali indotti dalla rivoluzione digitale e sulla loro accelerazione esponenziale, a partire dalla prima metà del decennio del nuovo secolo, che li ha portati a riscrivere profondamente i sistemi produttivi e anche gli stili di vita contemporanei. I temi del convegno riguardano il lavoro dell'economia digitale (le trasformazioni prodotte dall'industria 4.0; il telelavoro e il lavoro agile, che modificano le tradizionali coordinate spazio-temporali della prestazione ben oltre il tradizionale lavoro a distanza; la sharing economy e il platform work), ma pure la scomparsa del lavoro o la sua diffusa precarizzazione, anche nella forma dell'auto-impresa e/o del lavoro free lance.

Over the past few decades, the world economy has undergone radical transformations, in part connected to the expansion of the 'digital economy', in part to the growing interconnection via the internet of the world of objects and physical processes. This 'great transformation' poses the dilemma on the capitalism's ability to reconcile economic and social value, keeping together economic well-being, social cohesion and political freedom. The Economy of Collaboration can offer a contribution in this direction but requires courageous policies to mediate the various interests at stake, as well as to rethink and make more sustainable its development, by increasing the benefits not only for businesses but also for workers and consumers. In short, to create shared value. This book refers to a mode of organizing the production, distribution and consumption of goods and services based on cooperative relations. The main reference is to activities linked to the digital economy, since they are the emerging forms of a definitely older phenomenon, but which is expanding on an ever-wider scale thanks to new technologies. These collaborative activities can be regulated differently, along a continuum that ranges from the pole of market exchanges to that of generalized reciprocity, with various intermediate mixed forms.

This book examines the concept of 'development' from alternative perspectives and analyzes how different approaches influence law. 'Sustainable development' focuses on balancing economic progress, environmental protection, individual rights, and collective interests. It requires a holistic approach to human beings in their individual and social dimensions, which can be seen as a reference to 'integral human development' – a concept found in ethics. 'Development' can be considered as a value or a goal. But it also has a normative dimension influencing lawmaking and legal application; it is a rule of interpretation, which harmonizes the application of conflicting norms, and which is often based on the ethical and anthropological assumptions of the decision maker. This research examines how different approaches to 'development' and their impact on law can coexist in pluralistic and multicultural societies, and how to evaluate their legitimacy, analyzing the problem from an overarching theoretical perspective. It also discusses case studies stemming from different branches of law.

Drawing on Kaleckian and Kaldorian approaches, Political Economy of Contemporary Italy: The Economic Crisis and State Intervention explores the reasons behind the stagnation of the Italian economy from the 1970s and suggests policy solutions to ease the crisis. The central thesis of the book is that from the early 1990s Italy experienced a constant reduction of both private and public investment which, combined with increasing labour precariousness and wage moderation, contributed to the decline of both labour productivity and economic growth. It is argued that lack of industrial policies amplified the problem of the poor macroeconomic performance, since Italian firms – small-sized and non-innovating – were incapable of staying competitive on the global scene. Net exports did not compensate for the decline of public spending, private investment and consumption. It is also shown that, in these respects, Italy presents an interesting case study with wider ramifications for it was involved in the global process of intensifying the neoliberal agenda but at a faster rate than other OECD countries. The book concludes with a call for an alternative economic policy in order to promote innovation, reduce unemployment and stimulate economic growth. This book marks a significant contribution to the literature on the recent history of the European economy, Italian studies, and the history of economic thought.

This volume addresses the study of family law and society in Europe, from medieval to contemporary ages. It examines the topic from a legal and social point of view. Furthermore, it investigates those aspects of the new family legal history that have not commonly been examined in depth by legal historians. The volume provides a new 'global' interpretative key of the development of family law in Europe. It presents essays about family and the Christian influence, family and criminal law, family and civil liability, filiation (legitimate, natural and adopted children), and family and children labour law. In addition, it explores specific topics related to marriage, such as the matrimonial property regime from a European comparative perspective, and impediments to marriage, such as bigamy. The book also addresses topics including family, society and European juridical science.

Il volume contiene, oltre alle novità intervenute nel corso del 2016, anche una sintesi ampia e autorevole di tutti i principali istituti dei CCNL di maggiore diffusione. L'edizione del 2017 è arricchita con nuove schede contrattuali. La struttura razionale delle schede, il formato pratico, la suddivisione per istituti segnalata dalla banda laterale che si ripete sempre identica, l'indice per ordine alfabetico: ogni dettaglio è studiato per rendere estremamente facile e veloce la consultazione di tutti i CCNL considerati. L'opera è pensata per fornire risposte chiare, immediate e affidabili a coloro che nella pratica professionale sono chiamati a garantire il corretto adempimento degli obblighi contrattuali senza incorrere in errori o incertezze applicative. Il CD-Rom allegato contiene - per i principali settori - i valori dei minimi tabellari e della contingenza vigenti e quelli previgenti.
