comprehensive analysis of the processes of change and growth at work in the Indian countryside and to review the social and cultural dynamics that have led to the contemporary situation. Providing an analysis of the economic, political and social changes experienced in rural India, they examine the interactions between actors and institutions at different levels. Some contributions focus on the impact of state policies on rural development and on the rationale of capitalistic expansion in the Indian countryside, while others analyse how the changes are promoted, adopted and resisted at the local level. The general issue raised in the book refers to the assessment of the nature and working of contemporary Indian rural economy. In order to analyse the complexity of the rural economy and the forms it takes in different Indian contexts, this issue has been deconstructed considering, in turn, the

process of rural change, the impact of rural growth on working and living conditions, and finally the categories of the inhabitants of rural areas and the construction of their identities in colonial and post-colonial rural India.

The local and global environmental impacts of transport are more apparent than ever before. *Moving People* provides an attention-grabbing introduction to the problems of transport and the development of sustainable alternatives, focusing on the often misunderstood issue of personal mobility, as opposed to freight. Re-assessing the value and importance of non-motorized transport the author raises questions about mobility in the face of climate change and energy security, particularly for the developing world. Featuring original case studies from across the globe, this book is essential for anyone studying or working in

As one of the major challenges of the 21st century, food security requires nations to maintain food production at appropriate levels, provide potable water, and at once, ensure access of people to such food and water. Food suppliers also need to ensure year-long supply of food at optimum price and of high quality, both for needy and for discerning customers. Food Security in Asia provides a comprehensive analysis of the critical dimensions of food security in various countries of Asia. It compellingly argues that food insecurity is a complex phenomenon that requires a comprehensive response encompassing, inter alia, increasing food production, expanding economic and social access to food, special access to food

for disadvantaged groups and, most importantly, breaking down the gender-based barriers to accessing food. The book discusses the major governmental policies in relation to the communities' responses. While highlighting the pressure exerted by climate change and world population growth, it also propounds ideas that would help in making informed policy choices.
