In GM LS-Series Engines: The Complete Swap Manual, expert Joseph Potak walks you through all the steps involved in installing an LS engine into any vehicle, from concept to completion. Variants of GM's groundbreaking family of LS engines are installed in everything from the company's most mundane panel vans to its earth-shaking Corvette ZR1. First underhood in the 1997 Corvette, the LS1, and its successors have proven powerful, reliable, and amazingly fuel efficient. Since that time, more than a dozen variants have been produced, ranging from bulletproof, iron-block 4.8-liter workhorses to the supercharged 7.0-liter LS7. Performance enthusiasts have embraced this remarkable V-8, and it has quickly become a favorite for engine swaps. Why? Because the versatile engine offers fantastic power, a compact design, and light weight, and it responds very well to performance modifications. The key to this performance is a sophisticated electronics package that can intimidate even the most adventurous hot rodder. In GM LS-Series Engines: The Complete Swap Manual, professional LS-series engine specialist and technician Joseph Potak details all the considerations involved in performing this swap into any vehicle. With clear instructions, color photos, diagrams, and specification tables, Potak guides you through: Mounting your new engine Configuring the EFI system Designing fuel and exhaust systems Sourcing the correct accessories for your application Transmission, torque converters, and clutches Performance upgrades and power-adders Troubleshooting, should problems arise This is the ultimate guide to installing an LS in your project car.

In his illustrious career as a cartoonist for the New Yorker and other publications, Joseph Farris has created dozens of hilarious cartoons about "the best game in the world at which to be bad." A.A. Milne had it right, and Farris's cartoons get to the heart of the game's wonderful contradiction: over the course of eighteen holes, golf has the capacity to bring great joy and drive you crazy. Farris treats us to the sight of a blissfully happily newlywed with "Just Married" emblazoned on the back of his golf cart; of an archaeologist who discovers a hieroglyph featuring an annoyed-looking pharaoh breaking a golf club over his knee; and a TV-watching husband who rebuffs his naked wife's amorous advances in no uncertain terms: "Not now, I'm watching Tiger Woods." It's been said that real golfers don't cry. That may or may not be true. Joseph Farris's cartoons are sure to make any golfer laugh.
