Introducing the Ford Parts Interchange Guide In 1957, Ford Motor Company ushered in a new era of V-8 performance, which ultimately left tried-and-proven Y-Block and Flathead V-8s to history books and nostalgia buffs. The all-new FE-Series family of pushrod overhead-valve V-8s showed Ford in a new light in the years to follow.

In car tuning culture, an engine swap is the process of removing a car's original engine and replacing it with another. This may be a like-for-like replacement, or to install a non-factory specification engine. Typically an engine swap is performed for performance, swapping-in a more powerful engine; however, an engine swap may also be performed for maintenance, where older engines may have a ...
