[Gnuplot in Action is the first comprehensive introduction to gnuplot—from the basics to the power features and beyond. Besides providing a tutorial on gnuplot itself, it demonstrates how to apply and use gnuplot to extract intelligence from data. Particular attention is paid to tricky or poorly-explained areas.](#)

Manning | Gnuplot in Action  
Synopsis **HIGHLIGHT** Gnuplot in Action is the first comprehensive introduction to gnuplot - from the basics to the power features and beyond. Besides providing a tutorial on gnuplot itself, it demonstrates how to apply and use gnuplot to extract intelligence from data.

Gnuplot in Action: Understanding Data with Graphs: Amazon ...  
Although gnuplot includes comprehensive reference documentation, it can be difficult to fully master this tool. Gnuplot in Action, Second Edition is a major revision of this popular and authoritative guide for developers, engineers, and scientists who want to learn and use gnuplot effectively. The book starts with a tutorial introduction for readers new to gnuplot.

Gnuplot in Action: Amazon.co.uk: Philipp K. Janert ...  
The highly anticipated, updated version of my go-to-for-everything book on gnuplot. Ryan Ballanz, Shift Medical, Inc. Gnuplot in Action, Second Edition is a major revision of this popular and authoritative guide for developers, engineers, and scientists who want to learn and use gnuplot effectively. Fully updated for gnuplot version 5, the book includes four pages of color illustrations and four bonus appendixes available in the eBook.

Manning | Gnuplot in Action, Second Edition  
Gnuplot in Action makes gnuplot easy for anyone who needs to do data analysis, but doesn't have an education in analytical tools and methods. It's perfect for DBAs, programmers, and performance engineers; business analysts and MBAs; and Six-Sigma Black Belts and process engineers.

Gnuplot in Action - CERN  
gnuplot is an extremely powerful graphing program available for most computer platforms. It can produce stunning plots (see the online gallery), but is not particularly easy to control. It's been around since the late 1980s, and doesn't feel very modern. Hence my interest in this book.
