The most important

element of the full body

# File Type PDF Harness

harness is that it is safe and reliable, and one of the tool which companies and workers use to ensure the harness is in good and safe working order is an inspection checklist.

This full body harness inspection checklist template comes pre-built with a number of check items and checklist questions

# File Type PDF Harness

which combine to create a reliable procedure and set of requirements before anyone uses their full body harness.

### Guidelines

The checklist includes a detailed list of 20 separate checks to be made of the harness condition. These cover, for example, that the webbing is free of surface abrasion, cuts, dirt, grease, mould, discolouration, flaking and heat damage. Other questions examine the condition of stitching,
