Business ethics has largely been written from the perspective of analytical philosophy with very little attention paid to the work of continental philosophers. Yet although very few of these philosophers directly discuss business ethics, it is clear that their ideas have interesting applications in this field. This innovative textbook shows how the work of continental philosophers ¶ Deleuze and Guattari, Foucault, Levinas, Bauman, Derrida, Levinas, Nietzsche, Zizek, Jonas, Sartre, Heidegger, Latour, Nancy and Sloterdijk ¶ can provide fresh insights into a number of different issues in business ethics. Topics covered include agency, stakeholder theory, organizational culture, organizational justice, moral decision-making, leadership, whistle-blowing, corporate social responsibility, globalization and sustainability. The book includes a number of features designed to aid comprehension, including a detailed glossary of key terms, text boxes explaining key concepts, and a wide range of examples from the world of business.

Condition assessment and characterization of materials and structures by means of nondestructive testing (NDT) methods is a priority need around the world to meet the challenges associated with the durability, maintenance, rehabilitation, retrofitting, renewal and health monitoring of new and existing infrastructures including historic monuments. Numerous NDT methods that make use of certain components of the electromagnetic and acoustic spectrum are currently in use to this effect with various levels of success and there is an intensive worldwide research effort aimed at improving the existing methods and developing new ones. The knowledge and information compiled in this book captures the current state of the art in NDT methods and their application to civil and other engineering materials and structures. Critical reviews and advanced interdisciplinary discussions by world-renowned researchers point to the capabilities and limitations of the currently used NDT methods and shed light on current and future research directions to overcome the challenges in their development and practical use. In this respect, the contents of this book will equally benefit practicing engineers and researchers who take part in characterization, assessment and health monitoring of materials and structures.

This book is the first to present a rich selection of over 30 real-world cases of how leading organizations conduct Business Process Management (BPM). The cases stem from a diverse set of industry sectors and countries on different continents, reporting on best practices and lessons learned. The book showcases how BPM can contribute to both exploitation and exploration in a digital world. All cases are presented using a uniform structure in order to provide valuable insights and essential guidance for students and practitioners.

This book is the Proceedings of a State-of-the-Art Workshop on Conenctions and the Behaviour, Strength and Design of Steel Structures held at Laboratoire de Mecanique et Technologie, Ecole Normale, Cachan France from 25th to 27th May 1987. It contains the papers presented at the above proceedings and is split into eight main sections covering: Local Analysis of Joints, Mathematical Models, Classification, Frame Analysis, Frame Stability and Simplified Methods, Design Requirements, Data Base Organisation, Research and Development Needs. With papers from 50 international contributors this text will provide essential reading for all those involved with steel structures.

Global Davit GmbH offers the complete range of systems, such as: - rescue boat cranes - rescue boat davit systems - liferaft cranes - combined rescue boat / liferaft / store handling cranes - fast rescue boat davit systems with heave compensation features - fast response craft launch and recovery systems - lifeboat pivot davit systems driven by gravity or hydraulic power - offshore davit systems for life- and rescue boat handling as well as for liferaft handling - fender davit systems - free-fall lifeboat handling cranes - store / hose handling cranes in various executions - platform cranes for stores handling and personal transfer - winches - tailor made solutions according to cusatomers demands Our target: Incorporating customer demands in standard solutions, while realizing the optimum combination between costs and delivery time on a highest quality level. Furthermore Global Davit GmbH is able to design and manufacture "special" cranes or life saving equipment according to customer requirements. Additionally to the complete systems Global Davit GmbH also offers the full scalar of winches and a wide range of accessories suitable for your deck equipments.

Beginning with the fundamentals of carpentry work within a domestic construction setting, this book outlines which tools are required, and examines their care and proper use before covering the interpretation of technical drawings It goes on to explain a wide range of first-fixing operations prior to plastering, and second-fixing operations afe plastering. Each chapter covers the subject in great detail, with step-by-step illustrations and text to provide the reade with a complete picture of the sequence of work required to carry out each job. Goring's Manual of First and Second Fixing Carpentry has been updated to take recent developments in the building trades into account, and is also fully up to date with current industry best practice. Printed in full colour throughout, new chapter has been incorporated to address the sharpening of traditional saws. The breadth of coverage and easily accessible 'how-to' approach makes this book an ideal resourcefor apprentices taking NVQs and those following Construction Awards within the Wood Occupations from City & Guilds/Construction Skills The technical detail and practical focus ensures that this book will be a vital purchase for all students, and an essentia reference for any experienced carpenter or joiner.

Two abducted girls'one who returns, one who doesn't. The night they go missing, high school seniors Nicole Cutty and Megan McDonald are at a beach party in their small town of Emerson Bay, North Carolina. Police launch a massive search, but hope is almost lost'until Megan escapes from a bunker deep in the woods. . . . A year later, the bestselling account of her ordeal has made Megan a celebrity. It's a triumphant story, except for one inconvenient detail: Nicole is still missing. Nicole's older sister, Livia, a fellow in forensic pathology, expects that one day soon Nicole's body will be found and her sister's fate determined. Instead, the first clue comes from another body'that of a young man connected to Nicole's past. Livia reaches out to Megan to learn more about that fateful night. Other girls have disappeared, and she's increasingly sure the cases are connected. Megan knows more than she revealed in her book. Flashes of memory are pointing to something more monstrous than she described. And the deeper she and Livia dig, the more they realize that sometimes true terror lies in finding exactly what you've been looking for. . . .A fast-moving page-turner. . . . Donlea skillfully maximizes suspense by juggling narrators and time all the way to the shocking final twists.¶ |Publishers Weekly |Well worth the read.¶ |Booklist |Donlea's sophomore effort is solid. He keeps the reader guessing and second-guessing until the end, thanks to an expertly crafted abundance of potential suspects.¶ |Library Journal
