This book highlights the latest improvements in cadastre with examples and case studies from various parts of the world. Authors from different continents, in association with national and international organizations and societies, present the most comprehensive forum to date for cadastre, offering a broad overview of land administration and contemporary perspectives on current research and developments, including surveying,

land management, remote sensing and geo-information sciences. Cadastre is a universal concept and is defined as “ the work of officially mapping and systemically registering the areas, borders and values of all kinds of land and property ” . It is normally a parcel-based and up-to-date land information system containing a record of interests in land with rights, restrictions and responsibilities. It may be established for fiscal and legal purposes, to assist in management for better planning and other administrative purposes, and to enable sustainable development and environmental protection. As such, “ cadastre ” is an important public inventory documenting the records of ownership, bordering and responsibility regarding the land with “ title deeds ” to parcels and

answering the questions of “ whose land, where and how much ” . The materials included in the book can support courses at universities and related training institutions worldwide, and will greatly improve readers ’ understanding of the scholarly fields involved in cadastre: land registration and management, surveying and mapping, and geo-information management, land governance, land taxation and public administration etc.

This paper examines economic developments and policies in Canada during 1990–95. Spurred by the robust growth in the United States and the easing of monetary conditions between 1991 and 1993, economic

growth in Canada continued to strengthen during 1994. Real GDP grew by 4.5 percent in 1994 after growing by 2.2 percent in 1993 and 0.6 percent in 1992. Economic growth in 1994 was led by exports and investment in machinery and equipment. However, growth was more broadly based in 1994; private consumption strengthened, and there was a rebound in residential and nonresidential construction.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of

January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

This paper discusses Romania ' s Request for a Stand-By Arrangement (SBA). Since the 2008 global financial crisis, Romania has made significant progress in reducing macroeconomic imbalances and rebuilding fiscal and financial buffers. However, Romania remains vulnerable to external shocks, in particular uncertainties in the euro area as well as global volatility in capital flows to emerging markets. The new SBA would provide a valuable policy anchor and support Romania ' s comprehensive economic

program for 2013–2015 to maintain sound macroeconomic policies and financial sector stability and continue structural reforms to enhance growth prospects. The IMF staff supports the authorities' request for a new SBA.

Fully revised and updated to include detailed sector-specific sections on project financing in railways, airports, telecoms, ports and power, this new self-study workbook should greatly improve your knowledge of project financing, its uses and strengths.
