3. ? The Internet of Things (IoT) refers to the ever-growing network of physical objects that feature an IP address for internet connectivity, and the communication that occurs between these objects and other Internet-enabled devices and systems. ? In simple words, Internet of Things (IoT) is an ecosystem of connected physical objects that are accessible through the internet. ? It is also referred to as Machine-to-Machine (M2M), Skynet or Internet of Everything.
