"Mastering Bankruptcy is a succinct, practical guide to the intricacies of Title 11 of the United States Code. Functional in approach, it describes the operation of the general, administrative and estate management and maximization provisions of chapters 1, 3, and 5 of the Bankruptcy Code and their interaction with one another, and then turns to the operative chapters of the Code (7, 9, 11, 12, and 13) to describe how these provisions are deployed in liquidation, rehabilitation, and reorganization cases. The author is a long-term professor and practitioner, whose writings on this and other subjects have long been praised as spare and straightforward, eschewing the overly complex tone of other works, including many casebooks and treatises. He has incorporated his experience and explanations of typical bankruptcy issues, problems, solutions, and outcomes formed over nearly 20 years in the field. By weaving together the purpose and the practical effect of the provisions of the Bankruptcy Code and the Federal Rules of Bankruptcy Procedure with illustrative examples, this book will greatly assist those who are seeking to master the subject in short order. This book is part of the Carolina Academic Press Mastering Series edited by Russell L. Weaver, University of Louisville School of Law."

"This book tracks all published Art Law casebooks. It begins by asking what art is, and why there should be special rules for it. There follows a section on the rights and responsibilities of artists and collectors in areas such as freedom of expression, defamation, the right of publicity, the rights of privacy, copyright, trademark, moral rights, resale royalties, and the tax consequences of common art-related transactions. The book then treats commercial dealings in art, such as problems of authentication or ownership of the work, and commercial relationships between artists, collectors, dealers, auction houses and financiers of the art world. It deals with the law governing the organization and operation of museums, including employment law. The international treatment of art is discussed in terms of special rules for art in times of hostilities and occupation, as well as peacetime law governing the movement of art or

artifacts across national boundaries, and national control of its artistic patrimony. A series of chapters detail the law on preservation of U.S. artistic heritage, such as historic preservation law, the ownership of artifacts found on land or under water, and special rules applicable to Native American remains and artifacts. The book concludes with a discussion of rules of international litigation frequently encountered in art law controversies, such as jurisdiction, foreign sovereign immunity, Act of State, forum non conveniens, choice of law, enforcing foreign law, and proving foreign law"--
