There have already been several very successful books devoted to the original film in the Matrix trilogy. This entirely new collection of essays is the first book to examine the trilogy as a whole - as well as related products such as The Animatrix and the computer game. Contributors tackle these subjects from a range of perspectives: religion, philosophy, gender, race, film studies, and science, providing a comprehensive view of everything Matrix-related. Reviewing the cultural and religious implications of the trilogy, authors look at:

- \* American Religion, Community and Revitalization:

Micro-Hydro Design Manual has grown from Intermediate Technology's field experiences with micro-hydro installations and covers operation and maintenance, commissioning, electrical power, induction generators, electronic controllers, management, and energy surveys. There is an increasing need in many countries for power supplies to rural areas, partly to support industries, and partly to provide illumination at night. Government authorities are faced with the very high costs of extending electricity grids. Often micro-hydro provides an economic alternative to the grid. This is because independent micro-hydro schemes save on the cost of grid transmission lines, and because grid extension schemes often have very expensive equipment and staff costs. In contrast, micro-hydro schemes can be designed and built by local staff and smaller organizations following less strict regulations and using 'off-the-shelf' components or locally

made machinery.

An eminent biophysicist explains what quantum mechanics can reveal about the human mind, using information theory to illuminate recent advances in the neurosciences while discussing the physics behind the brain's capacity for instantaneously processing large amounts of information.

This book provides the definitive account of the Roper-Logan-Tierney model of nursing, including in-depth discussion of its conceptual development, its place within the wider body of nursing theory and a critique of its application in practice. The book concludes with a wider discussion of the place of this model for nursing in the face of ongoing challenges in both nursing and health care throughout the world.

The next chapter, *Taking Great Pictures*, explains the key disciplines of photography – portrait, abstraction, macro, still life and plenty more. Finally, the *Post-production* chapter demonstrates how to use apps to edit and enhance your images and create incredible prints for display.

"A warm hearted story of the inevitable rollercoaster of romantic love... and the more important task of loving one's self" from #1 international bestselling author Cathy Kelly (Elin Hilderbrand). At the top of the Eiffel Tower, a young man proposes to his girlfriend. In that second, everything changes, not just for the happy couple, but for the family and friends awaiting their return in Ireland. Leila's been nursing a broken heart since her husband suddenly left her, but she's determined to put on a brave face for the bride. Vonnie, a widow, has finally dared to let love back into her life, but a curveball arises that puts another's safety at risk. And Grace, a school principal, finds that her son's impending union brings her ex-husband back into her daily life, and starts to ponder past decisions and wonder if her divorce was in fact a mistake. As these three women gather around the young couple to prepare for the wedding, they'll each have to address their own demons and find a way to move forward, whatever the cost. \*Includes reading group guide
