Think: A Compelling Introduction to Philosophy by Simon ...

Philosophy seeks understand of the essential concepts science uses and which we use in ordinary life. Concepts like, knowledge, causation, understanding, explanation, right and wrong, and true and false. And others too. That's why one contemporary philosopher put it this way: science is talk about the world, and philosophy is talk about talk.

Simon Blackburn's theory on 'what is philosophy'??

Blackburn calls philosophy conceptual engineering. For just as the engineer studies the structure of material things, so the philosopher studies the structure of thought. For just as the engineer studies the structure of material things, so the philosopher studies the structure of thought.
