Stock Market Liquidity.Determinants and Implications

There's ample liquidity in the property market, if you're a seller you can easily find a buyer. On the contrary, in a tightening market as we're experiencing now, property prices are declining, interest rates are creeping up with the economy slowing, property developers are left with some unsold units, unable to find buyers. Sellers of property would also have trouble finding buyers, they'd have to lower prices to be more attractive.
