Strawberry DNA Extraction Lab | Biology Quiz - Quizizz

Strawberries are a great choice for a DNA extraction lab because they are octoploid, meaning that they have eight copies of each type of DNA chromosome. (Human cells are generally diploid, meaning they have two sets of chromosomes. Most organisms only have one genome copy per cell.) Each component of the extraction mixture plays a part.

companies. For DNA extraction, detergent is used to lyse the cell so that DNA is released into the solution. Then alcohol is added to cause the DNA to precipitate out. Strawberries are chosen for this particular experiment because strawberry cell has eight copies of the genome, and it would be easier to extract the DNA since it is

EXTRACTING DNA FROM STRAWBERRIES - Michigan

At the end of class, I ask the students whether they preferred the online extraction or the hands on lab. For the most part, students preferred the hands on lab because they were able to touch the materials. The students also said they felt it was helpful to have completed the online extraction prior to completing the strawberry DNA extraction.
