Sunpak Model S34-TSH (Two Stage Hardwired) The NEW Sunpak® two-stage patio heater is ideal for the commercial environment. Two levels of heat are controllable with an included simple switch. The hardwired control allows you to design a system to control multiple heaters from a panel if desired and durable enough for commercial applications.

Sunpak S34-TSH | Sunpak Patio Heaters
Sunpak heaters (except TSR) require 24 VAC from a transformer that must be located outside of the heater. The control system is a simple on/off control that can be actuated with either a switch or a timer (supplied by installer). The electronic ignition and flame sensing requires continuous power while the heater is operating.
