The Architecture of Happiness. One of the great, but often unmentioned, causes of both happiness and misery is the quality of our environment: the kind of walls, chairs, buildings and streets we're surrounded by. And yet a concern for architecture and design is too often described as frivolous, even self-indulgent. The Architecture of Happiness starts from the idea that where we are heavily influences who we can be – and argues that it is architecture's task to stand as an eloquent ...

The Architecture of Happiness. Extract. A concern for architecture has never been free from a degree of suspicion. Doubts have been raised about the subject's seriousness, its moral worth and its cost. A thought-provoking number of the world's most intelligent people have disdained any interest in decoration and design, equating contentment with discarnate and invisible matters instead.
