An inferiority complex developed as an adult can occur when you feel that you aren't able to accomplish things you set out to do, or when you feel harassed by your family, partner, or coworkers. Both types of an inferiority complex are associated with low self-esteem and making unfavorable comparisons between yourself and others.

Inferiority Complex - GoodTherapy.org Therapy Blog

Inferiority complex can be reduced by modifying thoughts & neglecting self-criticism. Inferiority complex is the feeling of inadequacy of self-worth and uncertainty about oneself. In this complex, the person constantly compares him to the others and feels that he is not measuring up to the standards. He feels less valuable, has a poor self-concept and thinks that he is unable to do the things as good as others can. In psychology, the term inferiority complex is referred to the personality
