File Type PDF

Web

~~edford-~~  
~~computing.co.uk~~  
Representational  
state transfer  
(REST) is a  
software  
architectural  
style that  
defines a set of  
constraints to  
be used for  
creating Web  
services. Web  
services that

# File Type PDF

## Web

Application conform to the REST architectural style, called RESTful Web services, provide interoperability between computer systems on the internet. RESTful Web services allow the requesting

Application

I'm really impressed by the diverse coverage in this book, from e-mail protocols, HTTP transactions, server and browser architecture, XML and XSLT, to best practices for web

File Type PDF

Web

Application  
development.

I've seen too many hodgepodge books on web application development that try to cover a broad range of topics that are slapped together haphazardly.
