This is the first comprehensive study of the remarkably rich tradition of women's writing that flourished in Italy between the fifteenth and early seventeenth centuries. Virginia Cox documents this tradition and both explains its character and scope and offers a new hypothesis on the reasons for its emergence and decline. Cox combines fresh scholarship with a revisionist argument that overturns existing historical paradigms for the chronology of early modern Italian women's writing and questions the historiographical commonplace that the tradition was brought to an end by the Counter Reformation. Using a comparative analysis of women's activities as artists, musicians, composers, and actresses, Cox locates women's writing in its broader contexts and considers how gender reflects and reinvents conventional narratives of literary change.

The first book in English on Maruja Mallo, this volume is an insightful examination of the life and work of this seminal artist of the Spanish avant-garde. Previously sidelined by a culture that treated women as "insider-outsiders" and by her own mythmaking, Mallo no longer can be viewed as simply a muse to famous counterparts such as Salvador Dalí and Federico García Lorca; her role has been re-contextualized to demonstrate that she was a driving force in the flowering of Spanish culture through the 1920s and

1930s. The analysis of Mallo's unique life and extraordinary art is set against the complicated social and political backdrop of interwar Madrid. This book highlights the struggle of Mallo and other women artists against the rampant misogyny of both Spanish culture and the avant-garde community of the time. The effects of the Spanish Civil War are also analyzed-in Mallo's case, Franco's victory forced her into exile in South America for almost 30 years, with profound effects on her art and her life. Added to this rich context, the author's numerous interviews with members of the Mallo family provide essential new background material. Maruja Mallo and the Spanish Avant-Garde recasts this artist as a vital figure in the heretofore all-male establishment of the Spanish artistic vanguard.

Perhaps the most amazing thing of all about Garcilaso de la Vega's epic account of the De Soto expedition is the fact that, although it is easily the first great classic of American history, it had never before received a complete or otherwise adequate English translation in the 346 years which have elapsed since its publication in Spanish. Now the Inca's thrilling narrative comes into its own in the English speaking world. Hernando de Soto's expedition for the conquest of North America was the most ambitious ever to brave the perils of the New World. Garcilaso tells in remarkably rich detail of the conquistadors' wanderings over half a continent, of the unbelievable

vicissitudes which beset them, of the Indians whom they sought to win for King and Church and by whose hands most of them died, of De Soto's death, and of the final pitiful failure of the expedition.

With contributions from a range of internationally known early music scholars and performers, Tess Knighton and David Fallows provide a lively new survey of music and culture in Europe from the beginning of the Christian era to 1600. Fifty essays comment on the social, historical, theoretical, and performance contexts of the music and musicians of the period to offer fresh perspectives on musical styles, research sources, and performance practices of the medieval and Renaissance periods.
